SECRET

FBIS-0236/87
3 November 1987

MEMORANDUM FOR: Chief, Analysis Group
                       Chief, Operations Group
                       Chief, Production Group
                       Chief, Joint Publications Research Service
                       Chief, London Bureau
                       Chief, Austria Bureau

FROM: 25X1
                       Deputy Chief, Liaison and Requirements Branch

SUBJECT: FBIS Collection Requirement No 87-19:   25X1

SUPERSEDES: FBIS Collection Requirement No 83-17:

    1. This is the updated National HUMINT Collection Plan   25X1
which includes numerous collection objectives for which FBIS is
responsible. The Intelligence Community and FBIS have determined that
FBIS can respond fully to these objectives from sources available to
you. FBIS performance will be evaluated on your selection and processing
based on these requirements. Components should read page 5 which
describes FBIS' coverage as "extensive".   25X1

    2. An "Official Use Only" version is included for use by nonstaff
employees in the field.

        FOUO is a "control and handling restriction" and not a
        classification designation. It means that the document
        contains "information concerning an aspect of intelligence
        sources and methods which does not meet the criteria for
        classification" but "can still be legally protected from
        unauthorized disclosure..." (see N 70-1)   25X1

    3. For easier field use, Liaison has marked the FOUO version to
show which objectives are FBIS' responsibility. There is also an
unclassified list of key personalities for monitor and contractor
reference. The field does not need to keep this memorandum or the
classified version of the collection plan.   25X1

                                                         25X1

SECRET

4. For internal control purposes, both versions of this plan on Poland are designated FBIS Collection Requirement No 87-19. This supersedes No 83-17 which should be destroyed. Your comments on this collection plan are needed to improve this tasking system.
